ABOUT ME

I am a highly motivated and skilled professional with a Bachelor of Science Degree in Mathematics and Computer Science (Applied Mathematics Option) from Meru University of Science and Technology. I have hands-on experience in system development, website development, and the deployment and version control of various systems.

Over time, I have developed advanced skills in system customization and have gained strong expertise in SaaS platforms such as Odoo ERP and similar enterprise solutions. I am passionate about building efficient, scalable, and user-focused systems that solve real-world problems.

I am currently seeking opportunities in dynamic and innovative environments that will challenge me, help me grow professionally, and allow me to contribute meaningfully to organizational success. I'm especially drawn to roles that provide a platform to showcase my technical skills while continuously learning and improving.

WORK EXPERIENCE

Medserv Africa Ltd.

Senior level | Full stack Engineer
Nairobi , Kenya
2024-06-01 | Currently working here

Odoo ERP Implementation & Customization: Extensive experience in Odoo training, module customization, and business process alignment. Skilled in creating tailored solutions across Sales, Inventory, Accounting, HR, and other core modules to meet unique organizational needs.
Custom Integrations & Solutions: Developed and implemented custom integration solutions to connect Odoo and other platforms, enhancing system interoperability and business efficiency.
Digital Marketing & Website Management: Managed SEO/SEM campaigns, website optimization, and digital analytics reporting. Focused on performance-driven strategies, innovation, and staying ahead of industry trends.
Customer & Supplier Onboarding: Led end-to-end onboarding processes for both clients and suppliers. Provided technical support, training, and documentation while ensuring seamless integration into business

systems.
UX/UI Design: Designed intuitive, accessible interfaces for web and mobile apps. Conducted user research and testing to improve usability and collaborated with development teams to implement design updates.
Front-End & Full-Stack Development: Built and maintained responsive, high-performance applications using HTML, CSS, JavaScript, and frameworks like React, Angular, and Vue.js. Integrated front-end with back-end systems for full-stack functionality.

PowerStart Supermarket
